Hey,

Not sure if you saw, but NoHo Plaza officially has lights!
Some pics attached.

Thank you guys so much for providing the funding to do it.
It makes a big, big difference both night and day, as well as really making it a place.

Also, let me know if you plan on adding something in your weekly eblast.
In my close out report, I need to list some methods the public was informed of this being funded by the City.

Thanks,
Aaron
